OBJECTIVE

To obtain a **responsible, challenging, and rewarding position** in a **reputable software development organization** where I can apply my **skills, knowledge, and technical expertise** to drive innovation and efficiency. My goal is to contribute meaningfully to the organization's success while establishing a fulfilling and long-term career.

With **around 4 years of professional experience** in **PHP, .NET technologies, and software development**, I have a strong background in **designing and developing client-server applications, Windows, and web-based solutions**. My expertise lies in **PHP and Microsoft technologies**, ensuring the development of **efficient, scalable, and high-quality software solutions** tailored to business needs.I am eager to join a **competitive and dynamic environment** where I can **utilize my expertise, expand my skill set, and contribute to impactful projects** that drive technological excellence.

UP Board Allahabad | Examination Score - 86%

WORK EXPERIENCE

Preview Technologies Pvt. Ltd – Noida

November 2023 - till Now

- During my tenure at Preview Technologies Pvt. Ltd., I successfully completed numerous projects, gaining invaluable experience and support from both management and my colleagues.I was also assigned to the client side (CWC), where I independently managed all operations for a specific project. I delivered multiple projects based on client requirements, including:
- CWC Website (a major project)
- Tender Management Portal
- Assets Management Portal
- For these projects, I handled everything from project planning and sketching to development, deployment, server hosting, and database management. I managed all operations efficiently, ensuring seamless execution and client satisfaction.
- This experience has strengthened my ability to work independently and handle end-to-end project development.

ND Info System – Noida

- During my tenure at ND Info System, I successfully accomplished numerous projects. This opportunity proved to be invaluable as I received extensive support and assistance from both the management and my colleagues at the company. Additionally, I was assigned to the multiple Projects to independently manage all operations for a specific project.
